Good afternoon,

LJB Inc. is performing a phase I environmental site assessment on behalf of the Ohio Department of Transportation for multiple sites in Springboro (45066), Warren County. The database search performed as part of investigation of the phase I properties identified three sites with possible ESA-related records and identification numbers.

As part of the phase I ESA, we are required to review all government agency files for the subject property. Therefore, I am requesting copies of all files your office maintains for the properties listed below, from all divisions within your office.

A map showing the locations of the properties is attached. I understand that there may be a fee involved with this request; please contact me with an estimate of any charges or if you need additional information.

Thank you,
Jennifer Miller
